

Playroom Committee

The playroom committee is responsible for the maintenance, cleaning and upkeep of the toys and equipment in the room.

On an ongoing basis, the committee will assess the condition of the toys and equipment to determine if there is any risk to children.

Any broken toys that are a safety risk will be discarded and work orders will be issued to the office for any maintenance issues.

An inventory log will be kept to record discarded toys in order to assist with budgeting for replacements.

The committee will vet and monitor donated items and determine if they meet safety standards and are appropriate for co-op use.
